

### **Multi-Platform Creative Production**

Jörg Westbomke, Stuttgart Media University

### **Prerequisites**

Profound knowledge in HTML and CSS is required for successful attendance of this course. In addition the participants should have acquired one programming language, so that basic knowledge about data structures and algorithms is already present.

### **Summary of the Module**

This module will develop students' abilities and understanding in producing web artefacts and modern web user interfaces. Furthermore they will gain practical experiences in programming using JavaScript/jQuery/D3.

### **Learning Outcomes**

The student will

- L1. have basic knowledge of algorithm and data structures
- L2. know JavaScript as programming language
- L3. be able to use JavaScript to design websites and web user interfaces

### **Learning Objectives**

Theoretical Principles 20%

Analyses 20%

Conception 20%

Realization 20%

### **Specialist Skills**

☐ Level 1: recognize & reproduce

☐ Level 3: compare & evaluate

### **Learning Objectives**

Theoretical Principles 20%

Analyses 20%

Conception 20%

Realization 40%

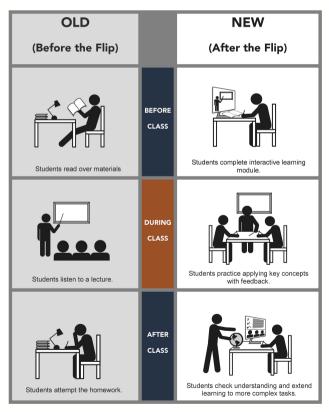

#### **Module Delivery Method(s)**

Blended learning, Flipped Classroom

#### **Learning & Teaching Activities**

Lecture/Core Content Delivery 45 hours
Laboratory/Demonstration/Workshop 8 hours
Asynchronous Class Activity 30 hours
Independent Study 60 hours
Total 143 Hours
5 ECTS

source: University of Texas

### **Learning material**

- JavaScript Tutorial (online)
- e-learning material presented via the LMS moodle
- manual and technical documentations (online)
- source code presented via the LMS moodle

### Feedback and Assessment Method(s)

Project work

# The Delivery

### **Information Design Curriculum**

- Introduction of a new curriculum in autumn semester 2016
- The course Webdesign (UI) (4 ECTS, semester 3) is based on the CIGN Module Multiplatform Creative Production

#### **Autumn Semester 2016**

• First test run of the MPCP course as optional course for 2. year Information Design students
